**DOMESTIC SECTION 214 APPLICATION FILED FOR  
TRANSFER OF CONTROL OF TGEC COMMUNICATIONS CO., LLC D/B/A FIRST  
WORLD CONNECT, ALSO D/B/A FREE CHOICE COMMUNICATIONS  
TO PACIFIC CENTREX SERVICES, INC. D/B/A PCSI**

**STREAMLINED PLEADING CYCLE ESTABLISHED**

**WC Docket No. 05-179**

**Comments Due: May 16, 2005**  
**Reply Comments Due: May 23, 2005**

On April 21, 2005, TGEC Communications Co., LLC d/b/a First World Connect, also d/b/a Free Choice Communications ("TGEC") and Pacific Centrex Services, Inc. d/b/a PCSI ("PCSI") ("collectively Applicants"), pursuant to section 63.03 and 63.04 of the Commission's rules,<sup>1</sup> filed an application requesting authority for the transfer of control of TGEC to PCSI.<sup>2</sup>

Applicants assert that this transaction is entitled to presumptive streamlined treatment pursuant to section 63.03(b)(2)(i) of the Commission's rules because (1) the proposed transfer will result in PCSI having less than a ten percent (10%) share of the interstate, interexchange market; (2) local exchange services will be provided in geographic areas served by a dominant local exchange carrier who is not a party to the transfer and; (3) neither TGEC nor PCSI is a dominant carrier with respect to any service.<sup>3</sup>

TGEC is a privately held limited liability company organized under the laws of the state of California. TGEC is authorized to provide local exchange and intrastate interexchange

<sup>1</sup> 47 C.F.R §§ 63.03, 63.04; *see* 47 U.S.C. § 214.

<sup>2</sup> Applicants are also filing applications for transfer of control associated with authorization for international services. Any action on this domestic 214 application is without prejudice to Commission action on other related, pending applications.

<sup>3</sup> 47 C.F.R § 63.03(b)(2)(i).

telecommunications services in California. TGEC is also authorized to provide interstate interexchange and international telecommunications services.

PCSI is a privately held corporation organized pursuant to the laws of the state of California. PCSI is authorized to provide local exchange and intrastate interexchange telecommunications services in fourteen states, including California. At the present time, PCSI is operating in California and Illinois only. PCSI is also authorized to provide interstate interexchange and international telecommunications services. PCSI has no affiliated companies and is 50% owned by M. Devin Semler, a U.S. Citizen and 50% owned by Lisa Semler, a U.S. citizen.

On April 15, 2005, Applicants entered into an agreement whereby, upon consummation of the transfer, PCSI will own 100% of the outstanding Capital Units ownership interests in TGEC. TGEC will remain a separate company, wholly-owned and operated by PCSI. TGEC is currently authorized to provide interstate interexchange and international telecommunications services and will continue to operate after the transfer.

Applicants assert that the proposed transfer of control is consistent with the public interest. Applicants state that the transfer of control will benefit consumers of domestic telecommunications market. According to the Applicants, the benefits of competition will include lower prices and increased availability of a variety of service options. The proposed transfer will be transparent to customers, and will not result in the change of any rate, term or condition of service. Moreover, TGEC will continue to market, brand and bill its services in the same name. Significantly, customers should benefit from the proposed transaction, as it will ensure continuity of their telecommunications services. The Applicants add that the proposed transaction will improve its overall financial condition by replacing high cost debt with lower cost debt, improving cash flow and thus enabling realization of significant economic and marketing efficiencies, thereby allowing the Applicants to compete more effectively and efficiently in the competitive telecommunications marketplace, and enhancing its ability to offer high-quality cost-competitive services.
